

The Victoria

Birmingham Fest 2019

Performance space.

The performance space is a private upstairs function room. It is a lovely, good sized room with a high ceiling. It has a small stage area at one end and there is also a stage extension if needed. There is a fully equipped sound desk (please see hire fees section). The space is suitable for more simplistic performances with minimal requirements.

Please note: as this is a Victorian venue there is no lift access to the room. It is only accessible via stairs to the first floor.

The room capacity is 120. There is seating available for approximately 50.

Performance slots.

Slots are every day of the week (subject to limited availability). However, Fridays and Saturdays would be reserved for music events due to the nature of the venue and being peak nights.

Hire fees.

The room hire is free for comedy, poetry, workshops, etc.

For music gigs where a sound operator is required the venue's own must be used (see below).

A technician/operator is available at an extra cost of £95. If there is a £400 spend on the bar this will be halved by the venue.

PLEASE NOTE: There is no box office service at The Victoria. Companies need to arrange their own ticket sales and marketing. Tickets can be sold on the door.
